

Concrete Hopper

Concrete Hopper - This particular attachment is a self-dumping hopper which automatically sets off to unload as soon as bumper release contacts the side of a dumpster. As soon as dumping is finished, the hopper goes back to a locked and upright position. This piece of machinery is even obtainable along with a cable which enables operation from the seat of the forklift in order to have the option of manually unloading the hopper. There is a locking chain provided to secure the hopper to the tine truck. This product is constructed with reliable and consistent robotic welds for utmost strength. The lift truck dumping hopper also has a blue powder coat finish so as to maintain durability.
