Clark features a extraordinary Parts Distribution team. The parts warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their customers and their dealers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Motivated to offer the highest level of value and service to our customers, Clark remains on the leading edge when it comes to improving output and benefiting performance.

Globally, Clark has one of the most outstanding supplier support networks. With over 550 locations worldwide, dealer representation in over 80 nations and 230 locations in North America, their high level of commitment to their clients predominates the material handling market.

Clark proudly remains an progressive leader of the material handling industry, pioneering protection features such as the operator restraint system. This exceptional commitment to safety is currently a standard feature on every forklift.

Clark's recurrent mission to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift producer across the globe to be certified with the internationally approved quality standard ISO 9001 for all of their production plants. Furthermore, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any number of environmental restrictions, thus placing them in a prevailing market position.

Clark has chosen the structure of "Lean Production" at all of its assembly facilities because this system is extremely economical and enables minimal use of resources. Established to guarantee maximum efficiency, this system is intended to discover and acknowledge the most efficient methods for production facility management. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers communicate together to upgrade the proficiency and brilliance of their products while minimizing costs. The new value engineering program combines innovative product development and offers superior customer support and service within the industry.
