

Forklift Electrical Part

Forklift Electrical Parts - Lift trucks together with various forklifts can have particular labels used in some hazardous locations. The mark denotes that this particular model of forklift meets the minimum standards of ANSI/UL 553 meant for electric forklifts or ANSI/UL 558 utilized for internal combustion engine forklifts.

Applications for labeled lift trucks can be found in National Fire Protection Association NFPA 505 - Powered Industrial lift trucks including: Areas of Use, Maintenance and Operation, and Type Designations. Consult your local insurance provider and Fire Marshall for further information about the permitted uses of industrial powered trucks in your application.

If the particular lift truck satisfies the outlined standards, labels can be placed. A labeled lift truck would show the type of designation located on the nameplate and will have a properly corresponding label attached.
