

Meritor Parts

Meritor Parts - The Meritor Business is a leading global supplier founded upon one hundred years of custom of quality and service. Meritor focuses on integrated systems along with various modules and parts to the original machinery manufacturers and aftermarket equipment within the industrial and transportation sectors.

Meritor values the wishes of all their clients to ensure their success while priding itself in the company's unique energy and believes this output of energy to be their competitive advantage in their international operations. Meritor starts with a philosophy which values diversity of individuals and their broad thought processes. Operating in 19 countries and hiring over eleven thousand two hundred individuals, Meritor encourages innovation and collaboration among a team of experienced experts.

By just employing future focused individuals, Meritor strongly feels these top-caliber individuals will be able to rapidly adapt to changing environments and demonstrate the commitment and performance needed so as to reach results in the competitive materials handling trade. The company empowers their teams to make sound business decisions in order to improve the overall success of the company. In return, Meritor offers all their workers various possibilities for personal and professional development.

Their Advanced Engineering team is at the forefront of parts and system engineering that consist of axles, drivelines, suspension and braking systems meant for medium and heavy duty trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the whole Asia Pacific region. This team is also responsible for supporting the requirements of all their international engineering staff.

The Quality team at Meritor is a dynamic and customer-focused group which is dedicated to ensuring optimum growth at their production plants and aftermarket distribution facilities which are situated on 5 continents and in 19 nations.

The supplier development network is specifically situated in order to support new business development. Regional teams are supported by global quality systems, centralized specialties and initiatives in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a data-driven, fact-based method to decision making in every aspect of the business. The DFSS or Design for Six Sigma ensures product reliability in each and every region. The team is also included transactional Green Belts who use Six Sigma tools to business processes and implement lean techniques.
