

Advance-Nilfisk Part

Advance-Nilfisk Parts - Think about how tedious it will really be to clean up your house right after throwing a big party, without assistance from cleaning equipment. Back in the day, the time carpets and upholstery had the dust beat out of them manually; brooms, cleaning cloths and brushes were the best cleaning supplies during that time.

The man who founded Nilfisk-Advance, P.A. Fisker, started as an electrical engineer who liked to work on electrical motors. After starting his company in the year 1906, he began to make motors to drive machine tools, drills, coffee grinders and fans. Mr. Fisker's vision from the beginning was to have a global company marketing merchandise internationally.

The Nilfisk C1 was a revolutionary breakthrough in the cleaning industry. Mr. Fisker invented a remarkable, ground breaking vacuum cleaner which could be operated by one individual as it just weighed 17.5 kilos! This invention came in a time where numerous cleaning machines were massive and needed at least 4 operators, hence, the Nilfisk C1 transformed everything and developed the way we clean forever. The brain behind these very first cleaning machines remains unparalleled. Cleaning machines offer a brilliant solution to an ongoing dilemma; things get dirty and must be cleaned on a regular basis, without a lot of effort.

Slowly, the business Nilfisk-Advance grew all through the years. During the early 1980's the business developed fast when the business became a part of the NKT Group. With new owners on board, they focused on driving Nilfisk-Advance forward within the business, trying to be an active international player in manufacturing professional cleaning machines. Nilfisk-Advance is now represented in every part of the globe by gradually acquiring lots of smaller businesses so as to develop their product selection and presence in new markets. They are proud to offer a variety of cleaning solutions to fit each and every requirement.
