

TCM Forklift Part

TCM Forklift Parts - In the international trade of material handling, lift trucks play a major role for transporting industrial goods. Initially innovated as industrial vehicles during the 1930s in America, lift trucks gained popularity following WWII in the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these machines spread internationally.

First founded as Toyo Carrier Manufacturing Company Limited, in the year 1949, the company was later renamed Toyo Umpanki Co. previous to becoming recognized as the TCM Corporation. Established by Mr. N. Niwa manufactured Japan's very first forklift. Through the years, TCM lift trucks have become an international leader in lift truck manufacturing and have built a solid reputation in the industry. TCM began constructing forklift manufacturing sites outside of Japan in the 1980s and is now engaged in forklift manufacturer at three foreign factories in Europe, China and the United States.

TCM proudly makes several models of industrial trucks with more than 50 years of accumulated expertise and technology, making their products recognized and used all over the globe. Characterized by strong initiatives and energetic staff, TCM continues to look toward the future and aspires to become a world-class leading business.
